WORK PAPERS OF SIL-AAB
Series B Volume 7
SUMMER INSTITUTE OF LINGUISTICS
AUSTRALIAN ABORIGINALS BRANCH
DARWIN
SEPTEMBER 1986
These Work Papers are being produced in two series by the Summer Institute of Linguistics, Australian Aborigines Branch, Inc. in order to make results of SIL research in Australia more widely available. Series A includes technical papers on linguistic or anthropological analysis and description, or on literacy research. Series B contains material suitable for a broader audience, including the lay audience for which it is often designed, such as language learning lessons and dictionaries.

Both series include both reports on current research and on past research projects. Some papers by other than SIL members are included, although most are by SIL field workers. The majority of material concerns linguistic matters, although related fields such as anthropology and education are also included.

Because of the preliminary nature of most of the material to appear in the Work Papers, these volumes are being circulated on a limited basis. It is hoped that their contents will prove of interest to those concerned with linguistics in Australia, and that comment on their contents will be forthcoming from the readers. Papers should not be reproduced without the authors' consent, nor cited without due reference to their preliminary status.

Views expressed by the authors are not necessarily those of SIL.

Research resulting in this volume was partially funded by grants from the Department of Aboriginal Affairs.

To order individual volumes of the Work Papers, or to place a standing order for either series, write:

PREFACE

The Kuku-Yalanji Language is spoken by approximately 500 - 600 speakers on the coast of south-eastern Cape York between Cooktown and Mossman, and inland to Chillagoe. This dictionary is of the northern dialects of Kuku-Nyungkul, the Rossville/Shipton's Flats dialect, Kuku-Yalanji, the China Camp/Daintree dialect, and Kuku-Jalunji, the Bloomfield dialect.

This dictionary is the result of the contributions of many of the Kuku-Yalanji speaking people at Wujal-Wujal (Bloomfield River). They cannot all be listed, but the major contributors over the years during which this dictionary has been compiled have been Toby Bloomfield, Ruby Friday, Bobby Roberts, Harry and Dolly Sykes and Johnny Walker. Also all the people who lived at Jajikal in Ayton have contributed much.

In compiling this dictionary, we have been grateful for the use of a concordance of Kuku-Yalanji texts made on the IBM 1410 computer at the University of Oklahoma by the Linguistic Information Retrieval Project, a joint project of the Summer Institute of Linguistics and the University of Oklahoma Research Institute, which is sponsored by Grant GS-934 of the National Science Foundation, USA.

Also of help in compiling the dictionary have been the following publications by fellow members of the Summer Institute of Linguistics:

KILHAM, Christine. 1971. 'Bilingual Dictionaries'. Kivung 4:39-49

Upon consultation with Kuku-Yalanji speakers, words which are considered rude and vulgar and which cause embarrassment are left out of this dictionary.

The dictionary is in three sections: Kuku-Yalanji to English, English to Kuku-Yalanji, and a brief introduction to the Kuku-Yalanji language.
